Application for the admission of Selina Martin to the Artist and Musician Residency Programme of the City of Dachau

Dear Lord Mayor,

the Bündnis für Dachau + Volt city council group submits the following

Application

The Canadian musician, composer and actor Selina Martin is to be admitted to the Artist and Musician Residency Programme of the City of Dachau for the period of three months starting in January 2027. An apartment in the Ruckteschell Villa is to be made available to her for this period.

The city administration is requested to issue Selina Martin with a written letter of acceptance in English immediately following the decision. The letter should confirm the duration, accommodation and purpose of the residency so that she can include it with her Canadian funding application.

Reasons

Selina Martin is an internationally active Canadian songwriter, composer, multi-instrumentalist, performer and actor. She studied acting at the University of Toronto and has for many years combined music, theatre, performance and experimental sound art in her artistic practice.

Since 1998, she has released five solo albums that have received international critical recognition. She has also worked with numerous artists from the Canadian independent and experimental music scene. As a composer and performer, she has contributed to theatre, film and television productions.

On 9 May 2026, Selina Martin performed a sold-out concert at the newly opened Gramsci Kult in Dachau. This enabled her to establish initial contacts with musicians and members of Dachau's cultural scene. The proposed residency would provide an opportunity to deepen these connections and develop further collaborations.

Artistic focus in Dachau

During her residency, Selina Martin intends to pursue several interconnected learning and development goals. The main focus will be continuing education, mentorship, and the development of artistic and professional networks. She would like to expand her skills at the intersection of music, theatre, movement, and sound art.

- Continuing education in combining music, theatre, movement and sound art
- Mentorship in sound art, movement and dance
- Artistic exchange and the development of professional networks
- Encounters with musicians and cultural institutions in Dachau

In the longer term, the skills acquired and developed during the residency are intended to contribute to the creation of a new type of one-woman musical. However, creative work on this project itself is not the purpose of the residency. The residency should instead provide space for education, new artistic impulses and collaborations that emerge through local encounters. During her stay, Martin should also present her work to the public, for example through a concert, workshop, artist talk or work-in-progress presentation.

Significance for Dachau and time frame

With her many years of international experience, her openness to different art forms and her strong interest in exchange and collaboration, Selina Martin would enrich both the Artist and Musician Residency Programme and the cultural life of the City of Dachau.

The initial three-month duration takes account of the residence-law conditions applying to a Canadian citizen and at the same time allows for a clearly defined programme of artistic work and exchange.

Selina Martin requires an official letter of acceptance in order to apply for additional funding for her stay. As the Canadian funding application may take several months to be processed, an early decision would be desirable.

Financial implications / funding proposal

The requested admission will not result in any additional expenditure that has not already been budgeted. Accommodation will be provided within the existing Artist and Musician Residency Programme at the Ruckteschell Villa. No separate funding proposal is therefore required.

Attachment

Statement of motivation by Selina Martin

Further documents can be submitted to the city administration and the Cultural Committee if required.
